Customer-Submitted Data: You may submit data to the Service to be sent to third-party AI model providers of your choice. You have sole control over what data you submit and whether that data includes personal information. The Company does not determine the purposes or means of processing your submitted data. AI Model Providers: We transmit your submitted data to third-party AI model providers solely as you direct. You select which AI model providers receive your data. Each AI model provider has its own privacy policy governing how they process your data.

Legal Requirements: We may disclose information if required by law or in response to valid legal process, such as a subpoena or court order.

Business Transfers: If we are involved in a merger, acquisition, or sale of assets, your information may be transferred as part of that transaction.

6. INTERNATIONAL DATA TRANSFERS

The Service is operated in the United States. If you are located outside the United States, your account information will be transferred to and processed in the United States.

When you direct us to transmit your data to AI model providers, those providers may be located in various countries. The location of data processing depends on which AI model providers you

select. You are responsible for understanding where your data will be processed based on your choice of AI models.

7. SECURITY

We encrypt your submitted data in storage. However, no method of transmission over the Internet or electronic storage is completely secure. While we implement reasonable security measures, we cannot and do not guarantee absolute security.

9. OTHER SITES AND SERVICES

Our Service may contain links to other websites and online services operated by third parties. These links are not an endorsement of, or representation that we are affiliated with, any third party. We do not control third party websites or online services, and we are not responsible for their actions. We encourage you to read the privacy policies of the other websites and online services you use.

10. CHILDREN

The Service is not intended for use by individuals under 18 years of age. We do not knowingly collect personal information from children. If we learn that we have collected personal information from a child without appropriate consent, we will delete it.
